

# Apple iMac

with Retina display

iMac now offers a stunning Retina 4K display on the 21.5-inch model and an even more spectacular Retina 5K display on the 27-inch. And a wider colour gamut means a palette of up to 25 per cent more available colours. So photos and videos look crystal clear and vibrant, and text is razor sharp.

## Key Features

- 5mm-thin design
- Intel Core i5 processors
- Low-reflection displays
- 802.11ac Wi-Fi + Bluetooth 4.0
- Magic Mouse 2
- Magic Keyboard
